The Heroes of America

What does a veteran mean to me? To me, a veteran means to be always prepared for battle. It also means to be ready to serve those that need help. To me, veterans are quite loyal to our country. They fight to the death to keep our country free. To be a veteran means to have self-control during battle. They have to think of others before themselves. They are unselfish. They die for our freedom. They are encouraging to others that worry about wars. That is what a veteran means to me.
